Collection of your Personal Information

SPA may collect personally identifiable information, such as your:

Use of your Personal Information

SPA collects and uses your personal information to operate its website(s) and deliver the services you have requested.

SPA may also use your personally identifiable information to inform you of other products or services available from SPA and its affiliates. SPA may also contact you via surveys to conduct research about your opinion of current services or of potential new services that may be offered.

SPA does not sell, rent or lease its customer lists to third parties.

Automatically Collected Information

Information about your computer hardware and software may be automatically collected by SPA. This information can include: your IP address, browser type, domain names, access times and referring website addresses. This information is used for the operation of the service, to maintain quality of the service, and to provide general statistics regarding use of the SPA website.

Use of Cookies

The SPA website may use "cookies" to help you personalize your online experience. A cookie is a text file that is placed on your hard disk by a web page server. Cookies cannot be used to run programs or deliver viruses to your computer. Cookies are uniquely assigned to you, and can only be read by a web server in the domain that issued the cookie to you.

One of the primary purposes of cookies is to provide a convenience feature to save you time. The purpose of a cookie is to tell the Web server that you have returned to a specific page. For example, if you personalize SPA pages, or register with SPA site or services, a cookie helps SPA to recall your specific information on subsequent visits. This simplifies the process of recording your personal information, such as billing addresses, shipping addresses, and so on. When you return to the same SPA website, the information you previously provided can be retrieved, so you can easily use the SPA features that you customized.

You have the ability to accept or decline cookies. Most Web browsers automatically accept cookies, but you can usually modify your browser setting to decline cookies if you prefer. If you choose to decline cookies, you may not be able to fully experience the interactive features of the SPA services or websites you visit.

Security of your Personal Information

SPA secures your personal information from unauthorized access, use, or disclosure. SPA uses the following methods for this purpose:

- SSL Protocol
- Paypal Encrypted Website Payments

When personal information (such as a credit card number) is transmitted to other websites, it is protected through the use of encryption, such as the Secure Sockets Layer (SSL) protocol.

Children Under Thirteen

SPA does not knowingly collect personally identifiable information from children under the age of thirteen. If you are under the age of thirteen, you must ask your parent or guardian for permission to use this website.
